

Ohad Benchetrit - Justin Small

A bit about us, Ohad Benchetrit & Justin Small:

As founding members of critically acclaimed Toronto based band Do Make Say Think, we have been creating engaging, epic, and emotional music together for over 23 years. As composers, our focus has always centered around melody, artistic integrity, passion, and spirited experimentation.

This has opened the door to a decades long career in film composition. We've always picked projects with lots of heart and beauty and believe score to be an integral part of the story telling. To add color, and emotion but not to lead. To add feel but not to persuade.

We've been honored with multiple awards, including the 2018 JUNO award for best instrumental album with our work with Do Make Say Think, the Best Original Score in 2016 at the LA scream Fest and a Canadian Screen Award in 2012 for Best original score for a documentary for Semi-Sweet: Life in Chocolate

We pride ourselves on finding the right emotional tone that both the director and picture are trying to convey. With Ohad's classical training and Justin's minimalist and immediate sense of melody we feel we have created a unique sound and style of film composition that holds the emotional crux of the entire project in the highest order.

We love what we do.
